Why God Doesn't Help?

Have you ever asked that question? Or, have you asked, "How can God allow that to happen? A friend asked me something similar about a situation we discussed. It is a valid question and something I am asked often. I realize that we may not understand many things about the way God orchestrates things or the reason why things happen as they do. Sometimes I look in and inquire to specifics especially in a spiritual healing session.

But, this weekend God chimed in and wanted to address the situation. Therefore, I wrote his message on the blog for all to gain a better understanding. As we all have had challenges at one time or another, maybe this explanation will help. If you read the post and have additional questions, let me know and maybe we can get further details for you. And, fortunately, if having additional challenges, spiritual healing does help identify and clear some of the dynamics mentioned.
