

Discover Spiritual Healing with Dr. Joy Pedersen

After teaching the Law of Attraction in Hollywood, Dr. Joy Pedersen recognized a pattern in her clients of experiencing blocks that prevented them from being

able to manifest their desires. Fortunately, she found a solution in spiritual healing. The Archangel Michael appeared before Dr. Pedersen, asking her to join him in a healing practice and write his book, *Wisdom of the Guardian: Treasures from Archangel Michael to Change Your Life*.

Since starting her own formal practice, Dr. Pedersen has served both individual clients and businesses across the globe. As an intuitive, she identifies the underlying causes of various life challenges and often sees the contributing factors from a client's past lives. Using spiritual healing, she clears the incidents, emotions, and karma from those circumstances, empowering others to live in the present and effortlessly seize new possibilities.

Dr. Pedersen works directly for Source as a global healer. She teaches the inner workings of life, as well as how to dialogue with Source, the higher self, and the inner child. She offers group healing, training sessions, and spiritual guidance from Heaven.

Clients seek her out for help with finances, family and relationships, work and business, mindset issues, health and well-being, and concerns about personal and global affairs. She lifts trauma, karma, curses, spells, dark magic, and other forms of darkness that can hold someone back from reaching their potential.
